

Rock the Runway Fashion Show Attire

We are preparing for the May 3rd Fashion Show! Your student has been selected to participate in **3 Scenes** (one scene is a family scene). Please bring all 3 of your outfits to class for review prior to April 21st. If parents ignore this vital step, there will be 2-3 students in the SAME outfit. We promise. We have done these many times.

Remember: Take your children with you when you shop. Children who love their outfits always perform better! Feel free to ask any questions or submit pictures of your outfit to the instructor or show them from your cell phone after class.

Below are examples to give you some ideas. ENJOY!

Shiny silver and metallic touches, whether that's with a sleek metal bag or silver pants. But the trend also encompasses a more dystopian vibe, with unexpected, destroyed shapes and silhouettes that make it look like you survived the apocalypse. Mix utilitarian pieces like cargo pants with jackets and tops in cool, edgy shapes for a fun juxtaposition that feels straight out of the next century. Holographic and Pink Rainbow Metallics with eye-catching appeal.

Nautical-inspired looks were all over the runways, and we'll be seeing them trickle down to our wardrobes, too. A navy and white Breton striped top is an easy way to rock the trend, as is a thick, cream cable-knit sweater; pair either top with loose-fitting, light-wash denim for a chic spin on the fisherman look. In the spring, invest in a raincoat in a cheery color like yellow or red. The sailor look is perfect for casual wear, so style your stripes, sweaters, knits, and raincoats with simple sneakers and maybe a bucket hat for good measure.
